

| Version | Revision Date: | SDS Number: |
|---------|----------------|-------------|
| 3.0 | 22.11.2022 | S1109438729 |

This version replaces all previous versions.

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

| Trade name | : | LUMAX |
|-------------|---|---------|
| Design code | : | A13789C |

1.2 Relevant identified uses of the substance or mixture and uses advised against

| Use of the Sub- | : | Herbicide |
|-----------------|---|-----------|
| stance/Mixture | | |

1.3 Details of the supplier of the safety data sheet

| Company | : | Syngenta SA (Pty) Ltd P.O. Box 1044, No. 4 Krokodildrift Avenue Brits 0250 South Africa |
|--|---|--|
| Telephone | : | +27 (0)12 2506 300 |
| Telefax | : | - |
| E-mail address of person responsible for the SDS | : | sds.ame@syngenta.com |

1.4 Emergency telephone number

Emergency telephone num- : +27 (0) 82 446 8946 (Griffon) ber

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

| Acute toxicity, Category 4 Short-term (acute) aquatic hazard, Cate- gory 1 | H302: Harmful if swallowed. H400: Very toxic to aquatic life. |
|--|---|
| Long-term (chronic) aquatic hazard, Cat- egory 1 | H410: Very toxic to aquatic life with long lasting effects. |
| Specific target organ toxicity - repeated exposure, Category 2, hematopoietic system | H373: May cause damage to organs through pro- longed or repeated exposure. |

2.2 Label elements

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

| Version | Revision Date: | SDS Number: |
|---------|----------------|-------------|
| 3.0 | 22.11.2022 | S1109438729 |

This version replaces all previous versions.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Components

| Chemical name | CAS-No. EC-No. Index-No. | Classification | Concentration (% w/w) |
|--|--|--|--------------------------|
| S-metolachlor | Registration number 87392-12-9 | Skin Sens. 1; H317 Aquatic Acute 1; | >= 30 - < 50 |

| | | M-Factor (Acute aquatic toxicity): 1 | |

For explanation of abbreviations see section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures

| General advice | Have the product container, label or Safety Data Sheet with you when calling the emergency number, a poison control center or physician, or going for treatment. |
|---------------------------|--|
| If inhaled : | Move the victim to fresh air. If breathing is irregular or stopped, administer artificial respira- tion. Keep patient warm and at rest. Call a physician or poison control centre immediately. |
| In case of skin contact : | Take off all contaminated clothing immediately. Wash off immediately with plenty of water. If skin irritation persists, call a physician. Wash contaminated clothing before re-use. |
| In case of eye contact : | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses. Immediate medical attention is required. |
| If swallowed : | If swallowed, seek medical advice immediately and show this container or label. Do NOT induce vomiting. |

4.2 Most important symptoms and effects, both acute and delayed

Symptoms

: Nonspecific

| LU | IMAX | | | |
|-------------|--|-------|--|---|
| Vers 3.0 | | | 0S Number: 109438729 | This version replaces all previous versions. |
| | | | No symptoms | known or expected. |
| 4.3 I | Indication of any immediate | mec | lical attention | and special treatment needed |
| | Treatment | : | There is no sp Treat sympton | ecific antidote available. natically. |
| SEC | CTION 5: Firefighting mea | asur | es | |
| 5.1 I | Extinguishing media | | | |
| | Suitable extinguishing media | ι : | Use water sprabon dioxide. | media - small fires ay, alcohol-resistant foam, dry chemical or car- media - large fires ant foam |
| | Unsuitable extinguishing media | : | Do not use a s fire. | solid water stream as it may scatter and spread |
| 5.2 \$ | Special hazards arising fror | n the | substance or | mixture |
| | Specific hazards during fire- fighting | : | As the product will produce de ucts of combu | t contains combustible organic components, fire ense black smoke containing hazardous prod- stion (see section 10). ecomposition products may be a hazard to |
| 5.3 | Advice for firefighters | | | |
| | Special protective equipmen for firefighters | t : | Wear full prote paratus. | ective clothing and self-contained breathing ap- |
| | Further information | : | courses. | un-off from fire fighting to enter drains or water ontainers exposed to fire with water spray. |

| 6.1 Personal precautions, protective equipment and emergency procedures | | | | |
|---|---|--|--|--|
| Personal precautions | : | Refer to protective measures listed in sections 7 and 8. | | |
| 6.2 Environmental precautions Environmental precautions | : | Prevent further leakage or spillage if safe to do so. Do not flush into surface water or sanitary sewer system. If the product contaminates rivers and lakes or drains inform respective authorities. | | |

| Version | Revision Date: | SDS Number: | This version replaces all previous versions. |
|---------|----------------|-------------|--|
| 3.0 | 22.11.2022 | S1109438729 | |

6.3 Methods and material for containment and cleaning up

| Methods for cleaning up | : | Contain spillage, and then collect with non-combustible ab- sorbent material, (e.g. sand, earth, diatomaceous earth, ver- miculite) and place in container for disposal according to local / national regulations (see section 13). Clean contaminated surface thoroughly. Clean with detergents. Avoid solvents. Retain and dispose of contaminated wash water. |
|-------------------------|---|--|
|-------------------------|---|--|

6.4 Reference to other sections

For disposal considerations see section 13., Refer to protective measures listed in sections 7 and 8.

SECTION 7: Handling and storage

| 7.1 Precautions for safe handling Advice on safe handling : | No special protective measures against fire required. Avoid contact with skin and eyes. When using do not eat, drink or smoke. For personal protection see section 8. |
|---|---|
| 7.2 Conditions for safe storage, inc | luding any incompatibilities |
| Requirements for storage : areas and containers | No special storage conditions required. Keep containers tight- ly closed in a dry, cool and well-ventilated place. Keep out of the reach of children. Keep away from food, drink and animal feedingstuffs. |
| 7.3 Specific end use(s) Specific use(s) : | For proper and safe use of this product, please refer to the approval conditions laid down on the product label. |

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational Exposure Limits

| Components | CAS-No. | Value type (Form of exposure) | Control parameters | Basis |
|-------------------------|-----------------|-------------------------------|--------------------|----------|
| S-metolachlor | 87392-12-9 | TWA | 5 mg/m3 | Syngenta |
| terbuthylazine (ISO) | 5915-41-3 | TWA | 0,8 mg/m3 | Syngenta |
| mesotrione (ISO) | 104206-82- 8 | TWA | 5 mg/m3 | Syngenta |

Derived No Effect Level (DNEL) according to Regulation (EC) No. 1907/2006:

| Substance name | End Use | Exposure routes | Potential health ef- fects | Value |
|------------------|-----------|-----------------|-------------------------------|-----------|
| propane-1,2-diol | Workers | Inhalation | Long-term systemic effects | 168 mg/m3 |
| | Consumers | Inhalation | Long-term local ef- | 10 mg/m3 |

| Version | Revision Date: | S |
|---------|----------------|---|
| 3.0 | 22.11.2022 | 5 |

SDS Number: S1109438729 This version replaces all previous versions.

| | | | fects | |
|----------------------------------|-----------|------------|--|-------------|
| | Consumers | Inhalation | Long-term systemic effects | 30 mg/m3 |
| | Workers | Inhalation | Long-term local ef- fects | 10 mg/m3 |
| copper dihydroxide | Workers | Inhalation | Long-term systemic effects | 1 mg/m3 |
| | Workers | Inhalation | Long-term local ef- fects | 1 mg/m3 |
| | Workers | Dermal | Long-term systemic effects | 137 mg/kg |
| | Consumers | Oral | Long-term systemic effects | 0,041 mg/kg |
| | Consumers | Oral | Acute effects, Short- term exposure | 0,082 mg/kg |
| 1,2-benzisothiazol- 3(2H)-one | Workers | Inhalation | Long-term systemic effects | 6,81 mg/m3 |
| | Workers | Dermal | Long-term systemic effects | 0,966 mg/kg |
| | Consumers | Inhalation | Long-term systemic effects | 1,2 mg/m3 |
| | Consumers | Dermal | Long-term systemic effects | 0,345 mg/kg |

Predicted No Effect Concentration (PNEC) according to Regulation (EC) No. 1907/2006:

| Substance name | Environmental Compartment | Value |
|------------------------------|-----------------------------|---------------|
| propane-1,2-diol | Fresh water | 260 mg/l |
| | Marine water | 26 mg/l |
| | Intermittent use/release | 183 mg/l |
| | Sewage treatment plant | 20000 mg/l |
| | Marine sediment | 57,2 mg/kg |
| | Fresh water sediment | 572 mg/kg |
| | Soil | 50 mg/kg |
| copper dihydroxide | Fresh water | 0,0078 mg/l |
| | Marine sediment | 676 mg/kg |
| | Fresh water sediment | 87 mg/kg |
| | Sewage treatment plant | 0,23 mg/l |
| | Marine water | 0,0052 mg/l |
| | Soil | 65 mg/kg |
| 1,2-benzisothiazol-3(2H)-one | Fresh water | 0,00403 mg/l |
| | Marine water | 0,000403 mg/l |
| | Sewage treatment plant | 1,03 mg/l |
| | Fresh water sediment | 0,0499 mg/kg |
| | Marine sediment | 0,00499 mg/kg |
| | Freshwater - intermittent | 0,0011 mg/l |
| | Marine water - intermittent | 0,000110 mg/l |
| | Soil | 3 mg/kg |

|---------|----------------|-------------|
| 3.0 | 22.11.2022 | S1109438729 |

This version replaces all previous versions.

8.2 Exposure controls

Engineering measures

Containment and/or segregation is the most reliable technical protection measure if exposure cannot be eliminated.

The extent of these protection measures depends on the actual risks in use.

Maintain air concentrations below occupational exposure standards. Where necessary, seek additional occupational hygiene advice.

Personal protective equipment

| Eye/face protection Hand protection | : | No special protective equipment required. |
|---|---|--|
| Material Break through time Glove thickness | : | Nitrile rubber > 480 min 0,5 mm |
| Remarks | : | Wear protective gloves. The choice of an appropriate glove does not only depend on its material but also on other quality features and is different from one producer to the other. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local condi- tions under which the product is used, such as the danger of cuts, abrasion, and the contact time. The break through time depends amongst other things on the material, the thickness and the type of glove and therefore has to be measured for each case. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough. |
| Skin and body protection | : | Choose body protection in relation to its type, to the concen- tration and amount of dangerous substances, and to the spe- cific work-place. Remove and wash contaminated clothing before re-use. Wear as appropriate: Impervious clothing |
| Respiratory protection | : | No personal respiratory protective equipment normally re- quired. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. |
| Protective measures | : | The use of technical measures should always have priority over the use of personal protective equipment. When selecting personal protective equipment, seek appro- priate professional advice. |

SECTION 9: Physical and chemical properties

SECTION 13: Disposal considerations

| 13.1 Waste treatment methods | |
|------------------------------|---|
| Product | Do not contaminate ponds, waterways or ditches with chemical or used container. Do not dispose of waste into sewer. Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local regulations. |
| Contaminated packaging | Empty remaining contents. Triple rinse containers. Empty containers should be taken to an approved waste han- dling site for recycling or disposal. Do not re-use empty containers. |

14.6 Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

14.7 Transport in bulk according to Annex II of Marpol and the IBC Code

Not applicable for product as supplied.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Other regulations:

None known.

15.2 Chemical safety assessment

A Chemical Safety Assessment is not required for this substance when it is used in the specified applications.

SECTION 16: Other information
