

don't let your
crop protection
DISAPPEAR

in the mist

3 reasons to choose Syngenta 3D ninety nozzles:

1. **More effective.** Patented 55° spray angle gives products the best shot at hitting the target
2. **Better performance.** Unprecedented 90% decrease in drift ensures you can keep working when conventional nozzles are no longer effective
3. **PWM compatible.** Combines drift reduction with the latest spray technology
