every **Seed** matters

Treatment method determines treatment results.

The value you get out of APRON® Plus Beans depends on how you apply it.

How to treat 100 kg seed:

Slurry preparation for different seed volumes					
Product in ml	1 kg	100 kg	1 000 kg	2 000 kg	4 000 kg
Water	1,625	162,5	1 625	3 250	6 500
Celest°XL	1,25	125	1 250	2 500	5 000
(i) Apron°XL	0,125	12,5	125	250	500
Total	3,00 ml	300 ml	3 000 ml	6 000 ml	12 000 ml

Warnings:

Wear protective clothing and protective equipment when treating seed.

Safe to use with high quality Rhizobium if the correct treatment procedure is being followed.

Constantly stir slurry mixture to avoid setting of products.

Only prepare enough slurry mixture for one day at a time and do not leave slurry mixture overnight.
